Cisco will be at Oracle Open World . Guess why?

Cisco and Oracle:
Fast. Simple. Proven.

Oracle Open World—October 11–15—Moscone Center, San Francisco, California

There is a lot of excitement these days with Cisco decision of being a Platinum sponsor of Oracle OpenWorld 2009 October 11–15, at the Moscone Center in San Francisco, California.

Cisco and Oracle have been for a long time partners and industry pioneers, bringing innovation to data center environments to improve productivity, increase service agility, and lower total cost of ownership.

So far Cisco Data Center Network solutions, including the Application Networking Services (ANS), have been delivering great platform for your Oracle infrastructure.

With the launch of the [Unified Computing Systems](#) this year, actively supported by Oracle, Cisco is providing a new level of services and systems to the Oracle applications users and administrators , that we describe as Fast, Simple and Proven .

So if you plan to be at Oracle Open World 2009, we invite you to attend our speaking sessions and visit Cisco booth (#2301) to get the latest news from our experts about Oracle validations and benchmarking results. Here are some details of what you can expect

On the both (#2301) , Cisco will present the key systems and products of the Data Center solutions portfolio and architecture , which provide today to the Oracle users unmatched performances, simplicity and reliability: Unified Computing System, Unified Fabric , WAAS/ACE

Oracle VM 2.1.5 for Linux x86 and x86_64

Validated Configuration Details

Publication Date	04-AUG-09
Version	1.0
Server Platform	Cisco B200-M1 Blade Server
Storage Model	EMC CLARIIION CX3-20C
Guest VMs	Oracle Database Single Instance on OEL 5 Update 3 x86_64 , OEL 4 Update 7 x86_64

Server and Storage Platform Details

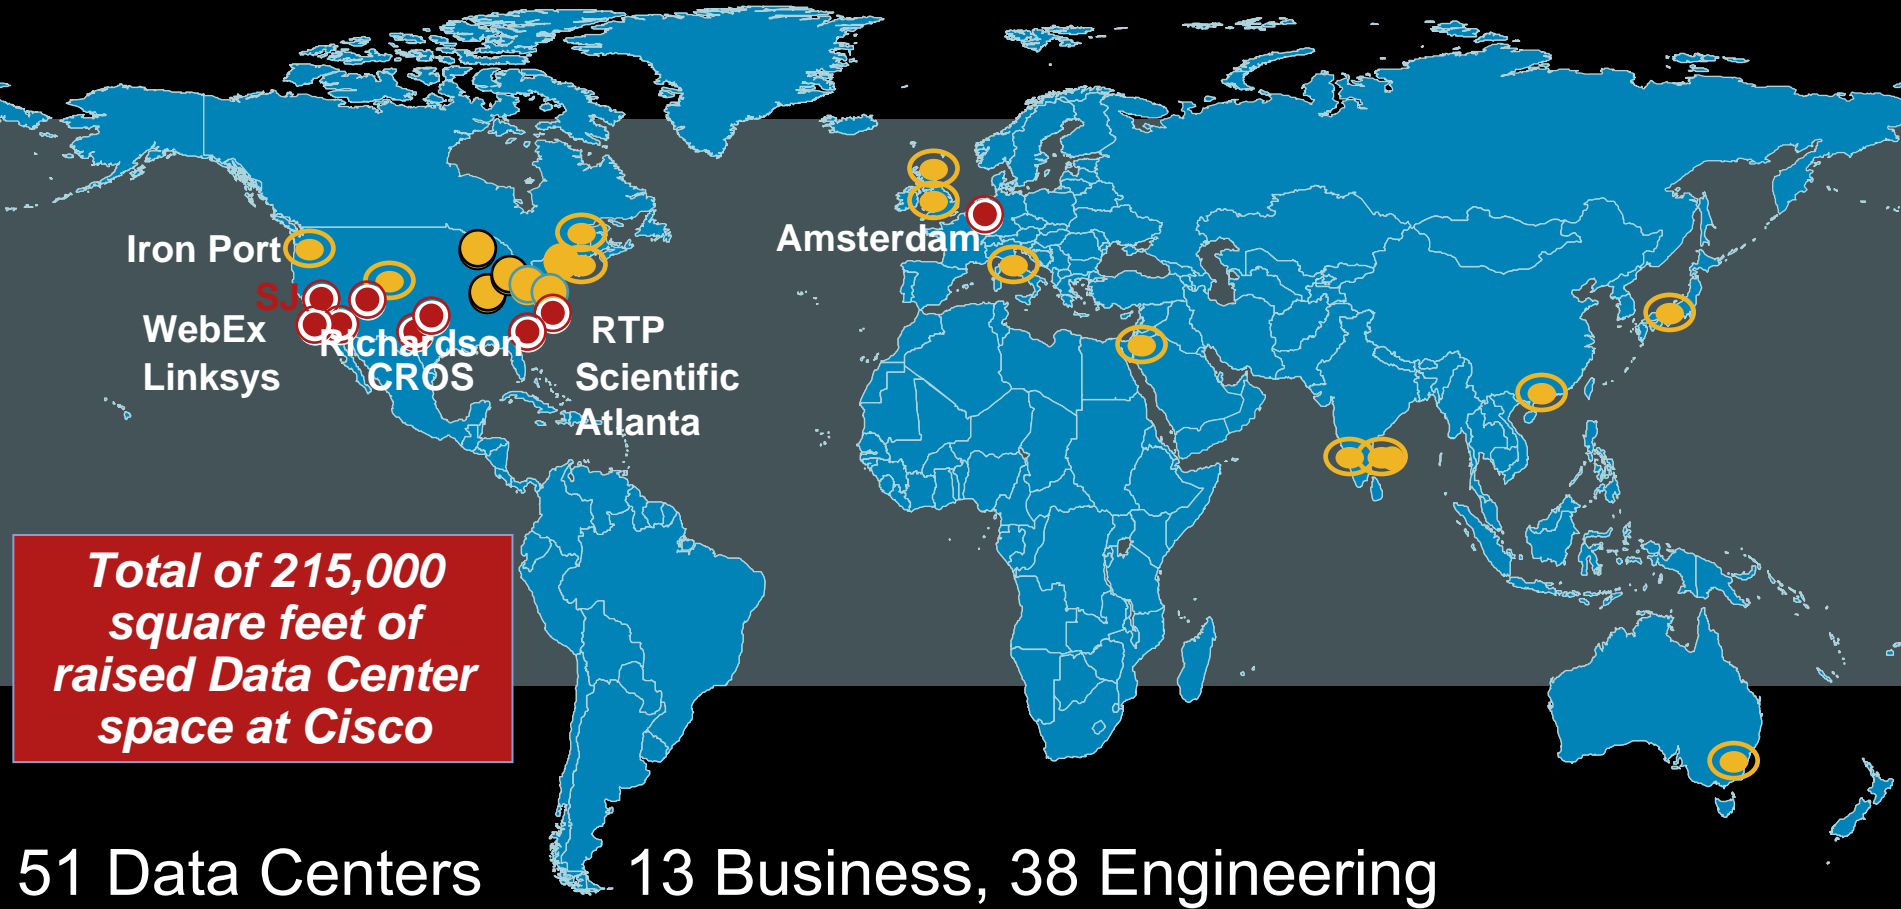

Server Model	1 X Cisco B200-M1 Blade Server
Processors	2 X Quad Core Intel Xeon X5570 2.933GHz
Hardware Virtualization Support	Yes
Type	VT-x
Memory	12GB RAM
OnBoardStorage	72GB SEAGATE ST973402SS
Network/Interconnect	Cisco UCS M71KR Q
HBA	Cisco UCS M71KR Qlogic-Q
Storage Model	CX4-960 , CX3-40f , CX3-40 , CX3-80 , CX3-20f , CX3-20 , EMC CLARIIION CX3-20C , CX3-20c , CX4-480 , CX4-240 , CX3-10c , CX4-120 , CX3-40c
Storage Details	FLARE version: 03.24.020.5.011
