Details:

On behalf of the City of Zagreb, Development Agency Zagreb and GFS Institute we are glad to invite you to take part in the 1st international conference ZAGREB FORUM 2013 on CREATIVE Cities and EUROPE that will be held in Zagreb (Croatia) on the 12th and 13th of March, 2013.

Within global competition cities need to win investors and create more and better jobs. The exploitation of creative industries, which have high, but often unrecognised potentials, contributes to the fulfillment of the Lisbon objectives on local levels.

Through the organization of this major international conference, the City of Zagreb hopes to bring its cultural policy one step further by addressing the challenges faced by other EU cities. The event will bring together experts from the fields of the triple helix "university, industry, government" focusing on the exchange of experience in the field of open innovation in creative industries.
