

Oracle BI 11g novosti na djelu i novi Oracle BI 11.1.1.6

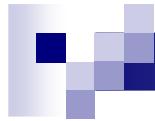

Irena Pereglin, Multicom
Milena Mrđa, Multicom

OBIEE – naše iskustvo...

- Višegodišnje iskustvo u verziji 10g
- Upravo završen projekt (produkacija) u verziji 11.1.1.5
- Trenutni projekt u verziji 11.1.1.6
- Migracija s 10g na 11g
- Višegodišnje iskustvo u BI Publisher 10g i 11g

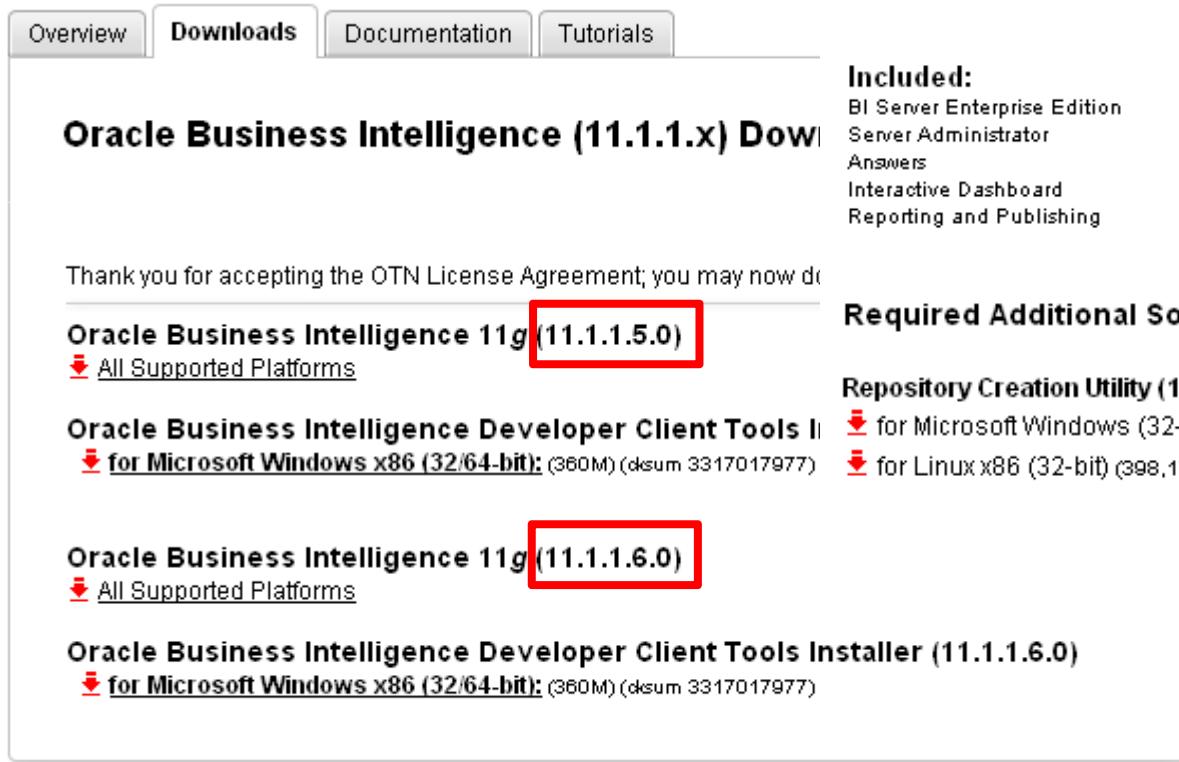

Oracle Business Intelligence 11g

- Najnovija verzija OBIEE (Oracle BI Enterprise Edition)
- Velike promjene u sučelju, arhitekturi, integraciji
- Integracija sa Oracle Fusion Middleware 11g

- Verzija 11.1.1.3 je predstavljala najraniji prelazak na verziju 11
- Verzija 11.1.1.6 dostupna od 2/2012
- Trenutno dostupne verzije:

The screenshot shows the 'Downloads' tab selected on the Oracle Business Intelligence website. It lists several components under the heading 'Included:' and provides download links for them.

Included:	Delivers
BI Server Enterprise Edition	Office Plug-In
Server Administrator	BI Publisher
Answers	Scorecard and Strategy Management
Interactive Dashboard	Real-Time Decisions
Reporting and Publishing	

Below this, there are sections for 'Required Additional Software' and 'Repository Creation Utility (11.1.1.5.0)' with download links for Microsoft Windows and Linux platforms.

Downloads

Oracle Business Intelligence (11.1.1.x) Downloads

Included:

- BI Server Enterprise Edition
- Server Administrator
- Answers
- Interactive Dashboard
- Reporting and Publishing

Delivers

- Office Plug-In
- BI Publisher
- Scorecard and Strategy Management
- Real-Time Decisions

Thank you for accepting the OTN License Agreement; you may now download the following software:

NA ŠTO MORAMO BITI SPREMNI?

ARHITEKTURA I TERMINOLOGIJA

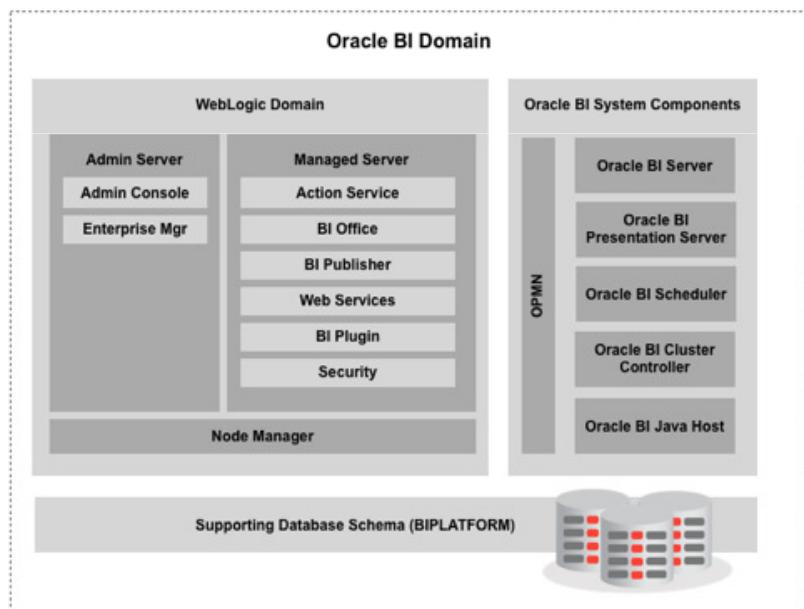

OBIEE 11G PROMJENE U TERMINOLOGIJI

- **iBoti** su preimenovani u **Agente**
- **Zahtjevi (Requests)** su preimenovani u **Analize(analyses)** , a pojam izvještaja (**Reports**) se sada odnosi na BI Publisher izvještaje
- **Prezentacijske kolone (Presentation columns)** su preimenovane u **Attribute columns**
- **Grafikoni (Charts)** su preimenovani u **graphs**

OBIEE 11G PROMJENE ARHITEKTURE

- Cjelokupan sustav se zove "**Oracle BI Domain**" i sastoji se od Java i sistemskih komponenti

This screenshot shows the Oracle WebLogic Server Administration Console. The left sidebar displays the domain structure for 'bifoundation_domain'. The main content area shows a table of deployed applications and modules, with columns for Name, State, Health, Type, and Deployment Order. Most items are listed as 'Active' with a green checkmark.

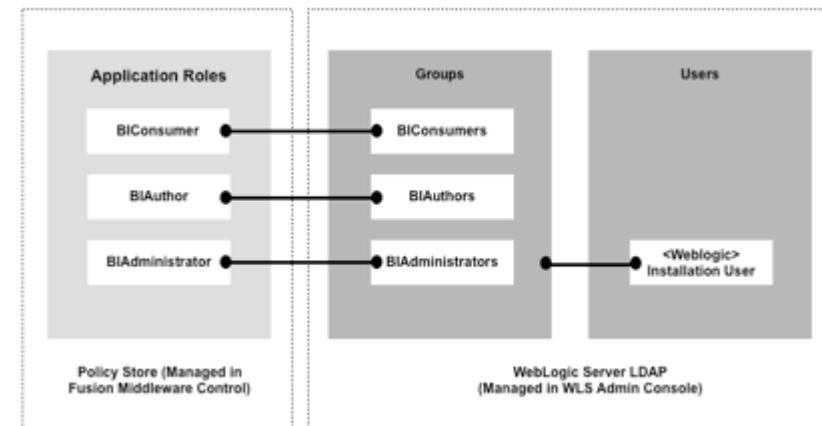

Name	State	Health	Type	Deployment Order
oracle.businesslayer(1.0.11.1.2.0)	Active	OK	Library	100
oracle.domain(1.0.11.1.2.0)	Active	OK	Library	100
oracle.domain.webapp(1.0.11.1.2.0)	Active	OK	Library	100
oracle.domain.weblogic(1.1.1.1)	Active	OK	Enterprise Application	299
oracle.analytics(1.1.1.1)	Active	OK	Enterprise Application	290
oracle.em(1.1.1.1)	Active	OK	Library	100
oracle.businessservices(1.1.1.1)	Active	OK	Enterprise Application	297
oracle.biadmin(1.1.1.1)	Active	OK	Enterprise Application	240
oracle.jdbc(1.1.1.1)	Active	OK	Library	300
oraclebiadmin(1.1.1.1)	Active	OK	Enterprise Application	253

This screenshot shows the Oracle Enterprise Manager 11g Fusion Middleware Control interface. The top navigation bar includes 'Setup', 'Help', and 'Logout'. The left sidebar shows the navigation tree under 'coreapplication' (Business Intelligence Instance). The main content area includes sections for 'Change Center', 'System Shutdown & Startup' (with a green 'Up (5)' status), 'System Status' (showing 'All components are available'), and 'Manage System' (with 'Start', 'Stop', and 'Restart' buttons).

OBIEE 11G PROMJENE SIGURNOSTI

- Proces autentifikacije se s BI Servera preselio u Fusion Middleware
- Korisnici i grupe se više ne kreiraju u repozitoriju već na WebLogic Serveru
- Grupe kao objekt više ne postoji u repozitoriju, a zamjenile su ih aplikacijske role
- Default su BI Consumer, BI Author, BIAdministrator role
- Kada se kreira novi korisnik po defaultu dobije rolu BI Consumer

OBIEE 11G PROMJENE SIGURNOSTI

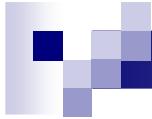

OBIEE 11G PROMJENE ADMINISTRACIJE

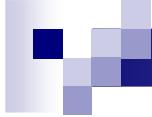

- Centralizirano upravljanje aplikacijom
- Deploy repozitorija je u EM
- Default katalog, repozitorij je u EM
- Logovi su EM
- Nema više ručnih izmjena u NQSConfig.ini....

The screenshot shows the Oracle Enterprise Manager 11g Fusion Middleware Control interface. The left sidebar shows a tree view of the farm structure, including Farm_bifoundation_domain, Application Deployments, WebLogic Domain, Business Intelligence, and coreapplication. The main panel displays the 'coreapplication' instance under 'Business Intelligence Instance'. The 'Deployment' tab is selected in the navigation bar. The 'BI Server Repository' section shows the default RPD as 'hpb_bi_BI0066' and provides options to share the repository or specify a shared location. The 'Upload BI Server Repository' section allows for uploading a new RPD file and entering its password. The 'BI Presentation Catalog' section shows the current catalog location as '\$ORACLE_INSTANCE/bifoundation/OracleBIPresentationServicesComponent/\$COMPONENT_NAME/catalog/hpb_bi'. The top right corner indicates the user is logged in as 'weblogic'.

NOVOSTI...

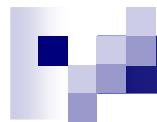

NOVE MOGUĆNOSTI

- **Vizualizacije**
- kombinira više alata izvješćivanja (KPI, Scorecards, BI mobile...)
- obnovljena Početna stranica
- obnovljeni Dashboards
- obnovljeni Answers

- **BI Publisher potpuno integriran u OBIEE 11g**

- **Oracle BI Composer (*Novo u 11.1.1.5*)**

NOVE MOGUĆNOSTI – KPI, SCORECARDS, BI MOBILE

The collage illustrates various Oracle Business Intelligence tools and their mobile counterparts:

- KPI Entry:** A screenshot showing the configuration of a KPI entry, including General Properties like Business Owner (weblogic), Actual Value ("Sales", "Amount"), Target Value ("Sales", "Target"), and Data Format (087,654,321.99). It also includes a threshold configuration section.
- Thresholds:** A screenshot of the Oracle Business Intelligence interface showing the configuration of thresholds for a KPI. It defines "High values" as "[Sales", "Target"] > .90" and "Low values" as "[Sales", "Target"] < .70". Status levels are mapped to OK (green), WARNING (yellow), and CRITICAL (red).
- Product Dashboard (Mobile):** A screenshot of a mobile phone displaying a product dashboard with various charts and data visualizations.
- Catalog (Mobile):** A screenshot of a mobile phone displaying a catalog interface with a sidebar for shared folders and views.
- Strategy Tree: Improve Store Performance:** A screenshot of the Oracle Business Intelligence Strategy Tree interface. The root node is "Improve Store Performance", which branches into "Improve Stakeholder Relat..." and "Enhance Financial Perf...". The "Store Staff Satisfaction" node is expanded, showing a score of 42.40 (52.47%) and details like Value: 42.40, Target: 89.21, Variance: 46.81, and % Variance: 52.47%.
- Store Performance Scorecard:** A screenshot of the Oracle Business Intelligence Scorecard interface. It shows a summary for "Store Sales - Sales" with a score of 262.00 (-10.08%), and detailed metrics for Store Sales, Store Margin, Store Customer Satisfaction, and Store Staff Satisfaction.

The screenshot shows the Answers software interface. In the top navigation bar, there are tabs for Untitled, Criteria, Results, Prompts, and Advanced. Below the navigation bar, the main area is divided into several panes:

- Subject Areas:** A tree view showing categories like A - Sample Sales (Time, Products), B - Sample Quotas, and C - Sample Headcount.
- Selected Columns:** A list of columns: Time, Products, Base Facts, 1-Revenue.
- Add / Remove Subject Areas:** A dialog box where A - Sample Sales is checked, and B - Sample Quotas and C - Sample Headcount are available but unchecked.
- Filters:** A section for adding filters to the analysis.
- Sort >:** A context menu for sorting, including options like Sort Ascending, Sort Descending, and Clear Sort.

The screenshot shows the Answers software interface with a Compound Layout pane. The layout includes a Pivot Table and a New Group dialog box. The Pivot Table has columns for Stores and Product Category. The New Group dialog box shows a list of available items under 'Available' and selected items under 'Selected'. An arrow points from the 'Selected' list to the right pane.

The image shows two side-by-side screenshots of dashboard editors. On the left is the 'Edit Dashboard' interface from Oracle Business Intelligence, featuring a sidebar with 'Dashboard Objects' (Section, Link or Image, Embedded Content, Text, Folder, Guided Nav. Link, Briefing Book Nav. Link, BI Publisher Report) and 'Saved Content' (Dashboards, My Dashboard, Sample Sales, My Folders, Check Boxes, Dynamic Rank, Radio Button, Shared Folders, Sample Sales). The main area displays a 'Section 1' panel with 'Properties' and 'Delete' buttons. On the right is the 'Edit Dashboard' interface from Oracle Business Intelligence, showing a grid layout with three columns (Column 1, Column 2, Column 3). A context menu is open over a section header in Column 1, with options including 'Condition...', 'Format Section...', 'Rename...', 'Drill In Place', 'Collapsible' (which is checked), 'Show Section Header', and 'Show Section Title'. The Oracle logo and 'Business Intelligence' text are visible at the top of this interface.

NOVE MOGUĆNOSTI – BI PUBLISHER

- BI Publisher potpuno integriran u OBIEE11g
- Izrada template-a je moguća u sklopu Analyticsa

NOVE MOGUĆNOSTI – BI COMPSTER

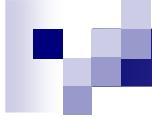

The screenshot shows the BI Composer interface in Mozilla Firefox. The title bar says 'BI Composer - Mozilla Firefox'. The main window is titled 'Create Analysis : Select Columns'. On the left, there's a 'Subject Area "Sales - Fact Sales"' tree view with nodes like 'Fact Sales', 'Dim Times', 'Dim Products', and 'Dim Stores'. On the right, a 'Selected Columns' list shows items like 'Revenue' and 'Sale Amount'. Buttons at the bottom include 'Back', 'Next', and 'Finish'.

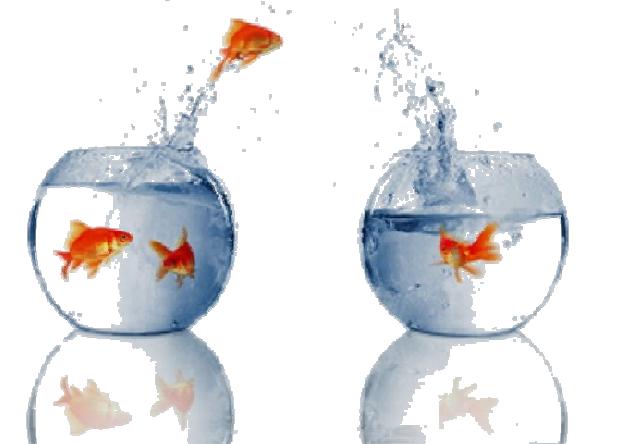

- BI Composer je alat koji omogućava izradu AdHoc izvještaja u jednostavnijem okruženju od Answersa
- Uključuje wizarde koji vode proces izrade izvještaja
- Potrebna je dodatna instalacija kroz Web Logic Configuration Utility
- Nakon postavke za Accessibility Mode u opciji Create New Analysis se umjesto Answers otvara BI Composer

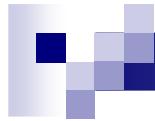

The screenshot shows the BI Composer interface in Mozilla Firefox. The title bar says 'BI Composer - Mozilla Firefox'. The main window is titled 'Create Analysis : Select Views'. It includes sections for 'Title' (set to 'First BI Composer Analysis'), 'Table' (set to 'Pivot (recommended) Menu'), 'Graph' (set to 'None Menu'), and 'Layout' (set to 'Table above Graph Menu'). To the right, there's a preview area titled 'First BI Composer Analysis' showing a pivot table with data from Q3-2010 to Q4-2010 across various products and regions. Buttons at the top include 'Visited Step: Select Columns', 'Current Step: Select Views', 'Unvisited Step: Edit Table', 'Disabled Step: Edit Graph', 'Unvisited Step: Sort and Filter', and 'Unvisited Step Highlight'. At the bottom right, there's a 'Preview Report XML' checkbox.

Quarter	Products	Region Name	Revenue	Sale Amount

Converted Revenue: 8/13/2012 1:38:15 PM

R3 Order Currency	# of Orders	Avg FX Rate	Converted Revenue
AUD	17,866	0.932	16,379,593.05 USD
EUR	17,922	1.423	25,206,396.50 USD
USD	35,212	1.000	34,714,565.11 USD
Grand Total	71,000	1.090	76,300,554.66 USD

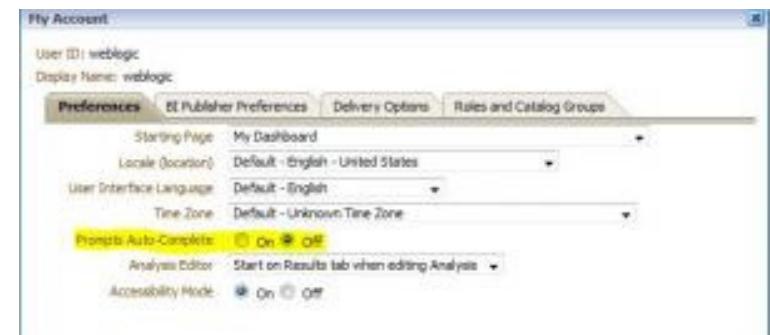

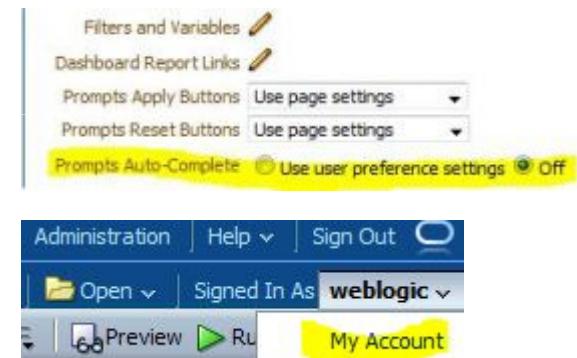

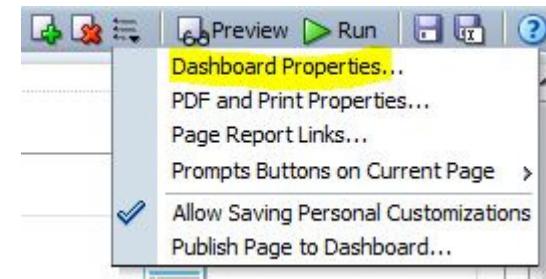

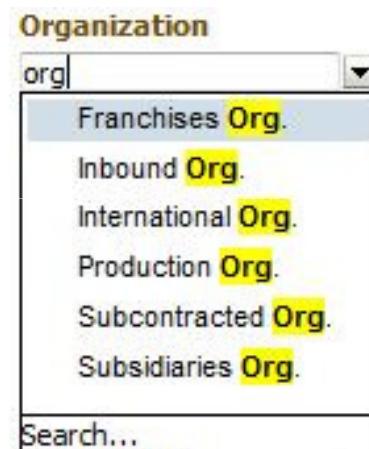

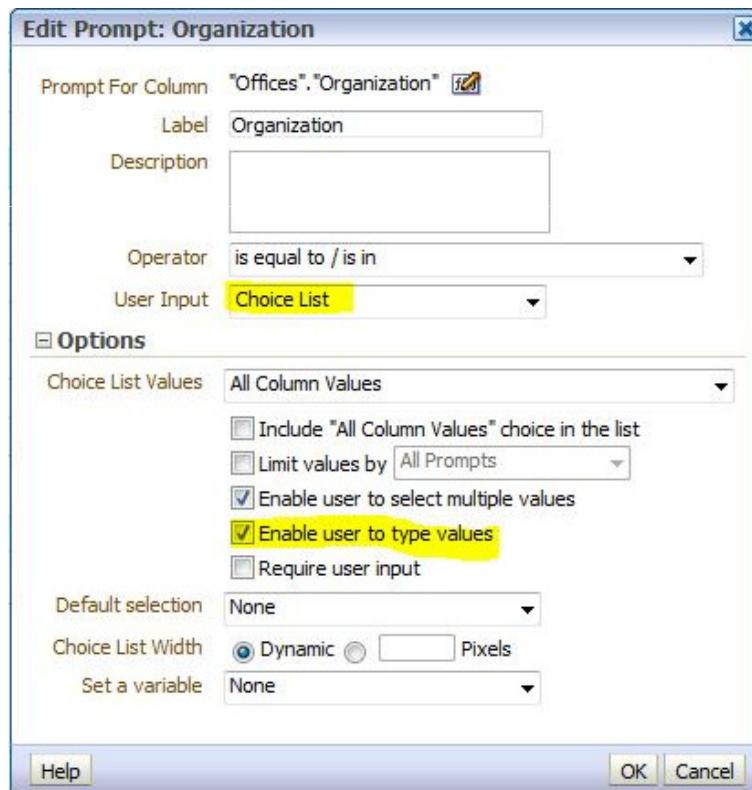

Edit - Refresh - Print - Export - Copy

Prompt za određene valute.

A screenshot of a 'Currency Prompt' dialog box. It shows a dropdown menu with 'USD' selected, and other options like 'Euro (€1.05)' and 'AUD'. Below the dialog is a table titled 'Converted Revenue' showing data for AUD, EUR, and USD. The table includes columns for R3 Order Currency, # of Orders, Avg FX Rate, and Converted Revenue. A red box highlights the 'Currency Prompt' dialog, and a red arrow points from the text 'Prompt za određene valute.' to it.

POBOLJŠANJA PROMPTOVA

- Auto-Complete funkcionalnost
 - Treba omogućiti u instanceconfig.xml
 - Radi za Choice list prompt

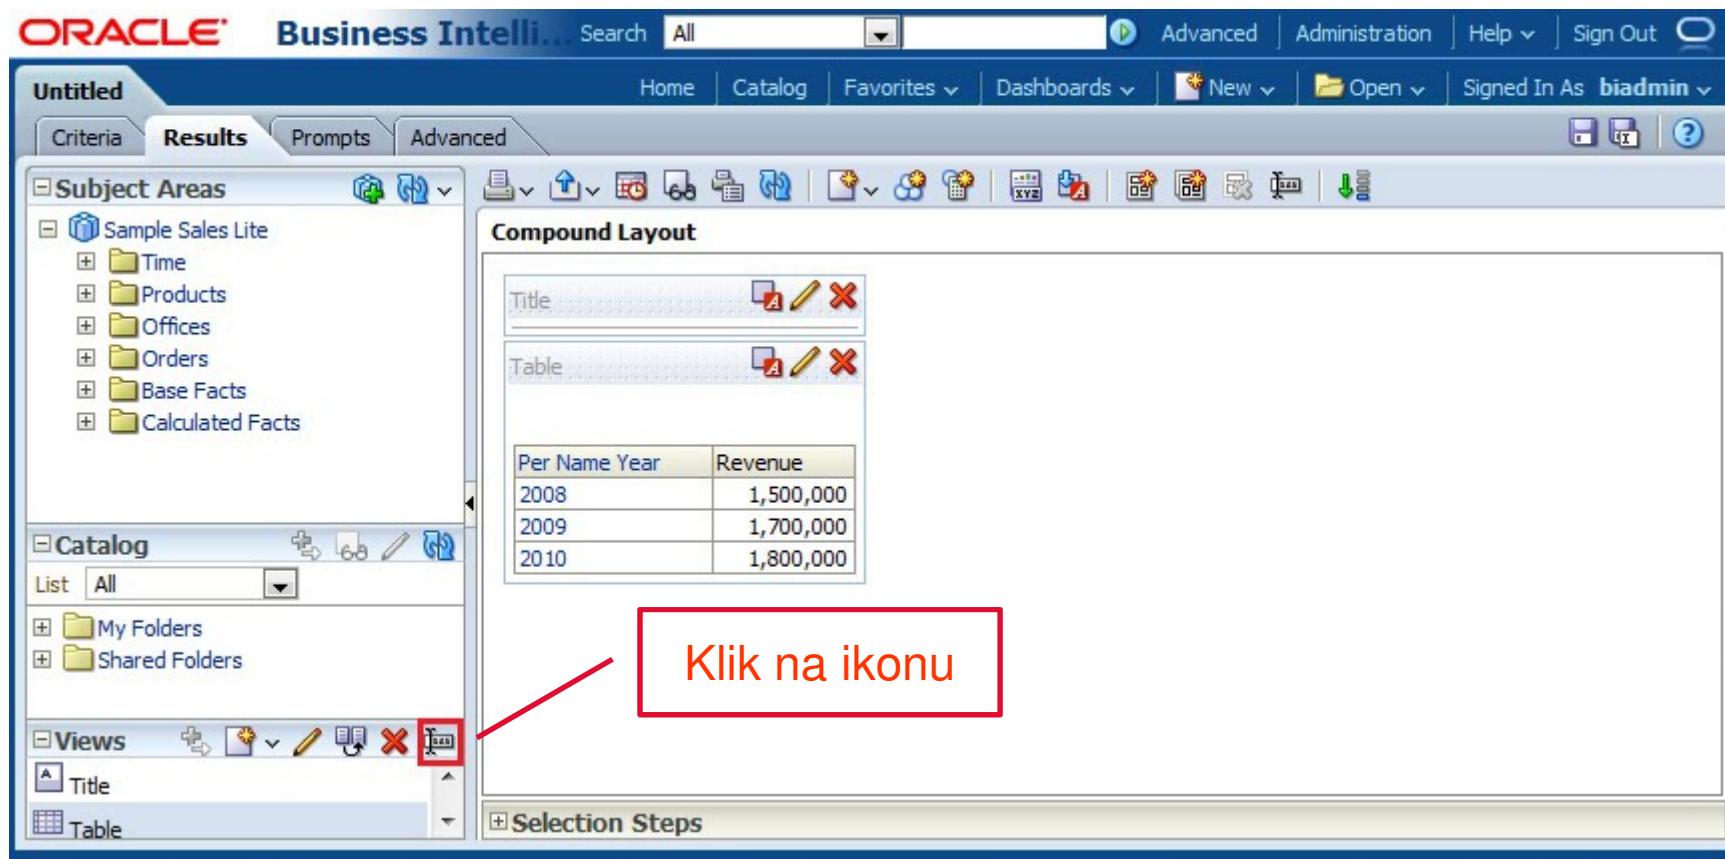

Dodavanje kolona na postojeće izvještaje

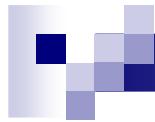

- 11.1.1.6 - automatsko dodavanje
- 11.1.1.5 – isključena kolona

The screenshot shows the Oracle Business Intelligence interface. On the left, there's a navigation pane with 'Subject Areas' expanded, showing 'Sample Sales Lite' with sub-folders like Time, Products, Offices, Orders, Base Facts, and Calculated Facts. Below it are 'Catalog' and 'Views' sections. The main workspace is titled 'Compound Layout' and contains two components: 'Title' and 'Table'. The 'Table' component displays a data grid with two columns: 'Per Name Year' and 'Revenue'. The data is as follows:

Per Name Year	Revenue
2008	1,500,000
2009	1,700,000
2010	1,800,000

Preimenovanje view-a

End-user selection steps

- Pivot tablica
- Dodavanje grupa i izračunatih stavki
- Dodavanje totala
- Spremanje trenutačnih prilagodbi

The screenshot shows the Oracle BI Publisher interface with a pivot table titled "Category Sales by Region". The table has columns for "Sale Amount" (Drinks, Bread, Other Categories) and rows for stores. A context menu is open over the "Other Categories" column, with the "After Values" option selected. The menu also includes options like "Collapse all items for this column", "Sort Column", "Keep Only", "Remove", "Show Row level Grand Total", "Show Column level Grand Total", "Exclude column", "Hide Column", and "Move Column".

	Sale Amount		
	Drinks	Bread	Other Categories
Store 1	78	25	20
Store 2	24	6	51
Store 3	1012		

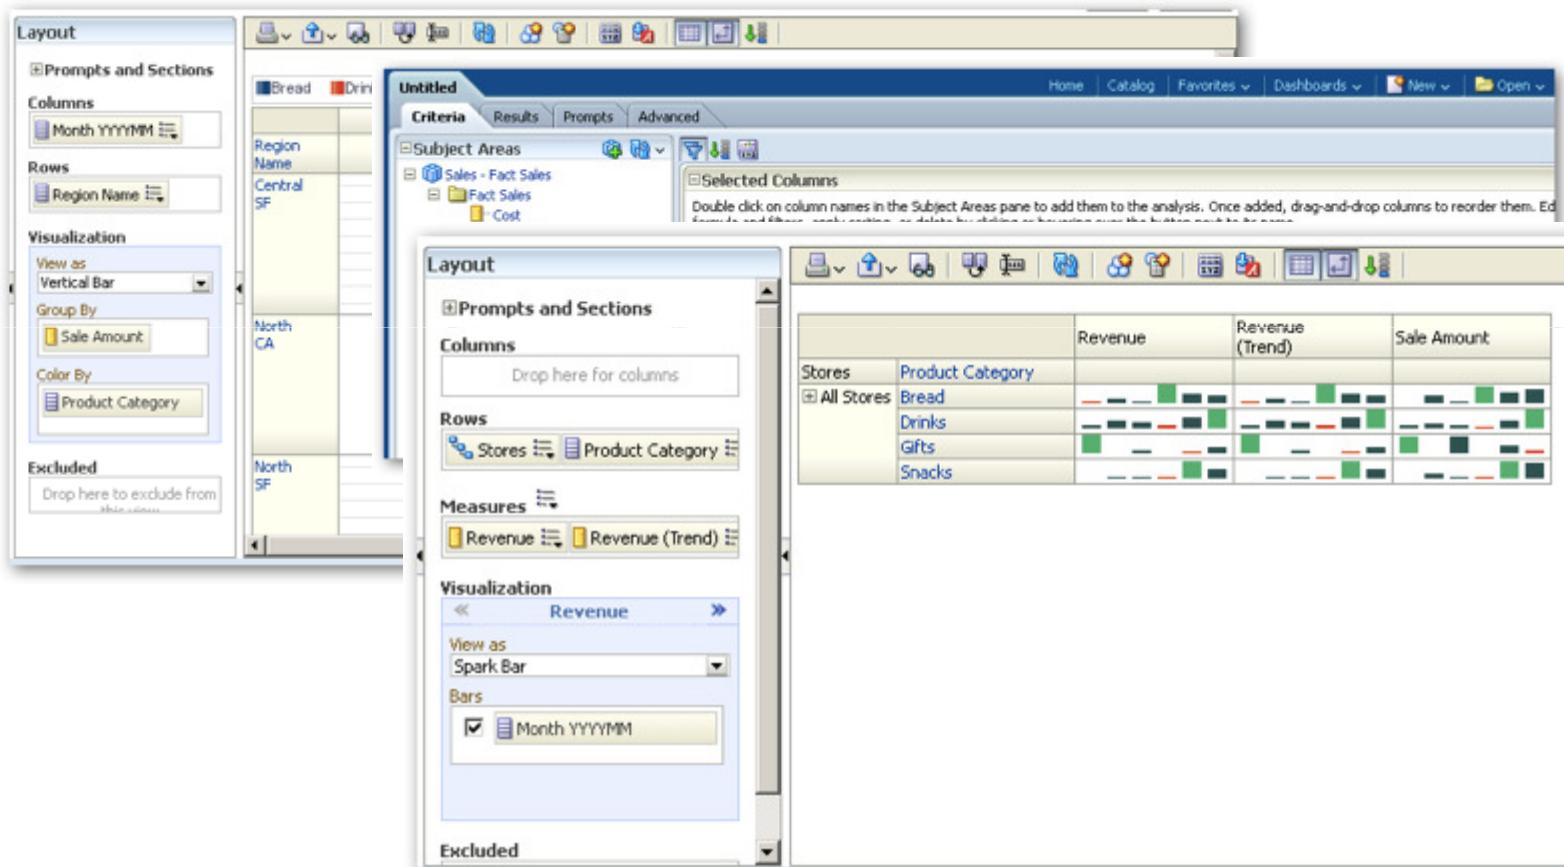

Dim Stores - Stores

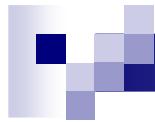

1. Start with all members
2. Then, Remove 'Other USA'
3. Then, Add [SF Regions](#)

Dim Products - Product Category

1. Start with all members
2. Then, Add [Other Categories](#)

Trellis Views, Microcharts and Sparklines

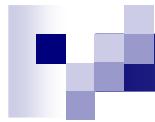

Novi Waterfall Graf

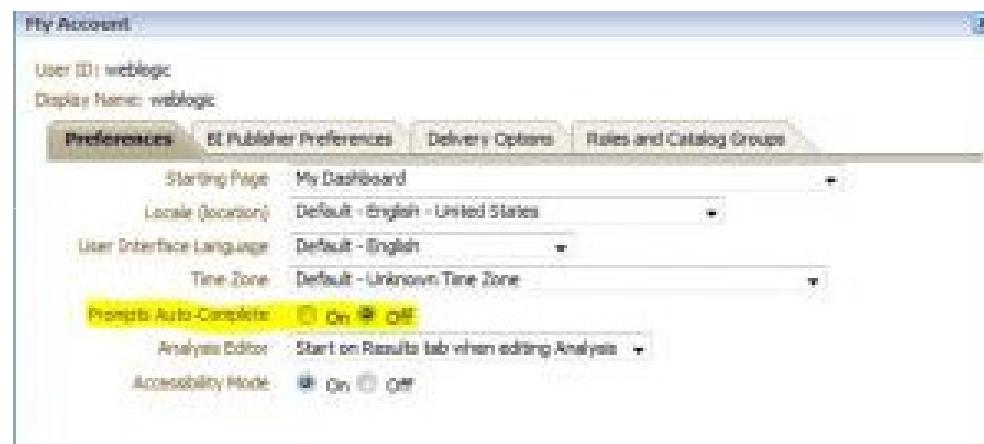

- Pomični-stupičasti grafikon
- Početna vrijednost - povećana ili smanjena nizom srednjih vrijednosti

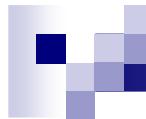

Postavke računa

- Uređivanje izvještaja
- Valuta
- Auto-complete

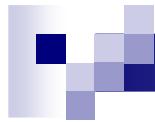

OBIEE 11.1.1.6.4 je dostupan

- The Oracle Business Intelligence 11.1.1.6.4 patchset:
 - patch 14538078 Patch 11.1.1.6.4 (1 of 7) Oracle Business Intelligence Installer
 - patch 14538128 Patch 11.1.1.6.4 (2 of 7) Oracle Real Time Decisions
 - patch 14285344 Patch 11.1.1.6.4 (3 of 7) Oracle Business Intelligence Publisher
 - patch 14538164 Patch 11.1.1.6.4 (4 of 7) Oracle Business Intelligence ADF Components
 - patch 14415773 Patch 11.1.1.6.4 (5 of 7) Enterprise Performance Management Components Installed from BI Installer 11.1.1.6.x
 - patch 14405222 Patch 11.1.1.6.4 (6 of 7) Oracle Business Intelligence
 - patch 14409674 Patch 11.1.1.6.4 (7 of 7) Oracle Business Intelligence Platform Client Installers and MapViewer

The screenshot shows the Oracle Business Intelligence Administration interface. At the top, it displays the product version: **Oracle Business Intelligence Product Version 11.1.1.6.4 (Build 120905.1435 32-bit)**. Below this, there are several sections:

- Administration**: Shows the physical presentation catalog path: **C:\OBIEE11g\instances\instance1\bifoundation\OracleBIPresentationServicesComponent\coreapplication_obips1\catalog\SampleAppLite\root**, Oracle BI Server Data Source: **coreapplication_OH1622237802**, Available Paging Memory (MB): **1280**, Available Virtual Address Space (MB): **1707**, and Maintenance Mode: **is currently off.**
- Security**: Includes links for **Manage Catalog Groups** (Create, edit and delete Catalog Groups) and **Manage Privileges** (Manage privileges and rights given to users and groups).
- Session Management**: Includes links for **Manage Sessions** (View Oracle Business Intelligence session information including active users and queries) and **Manage Agent Sessions** (View Agent session information including Agent state and recipients).
- Maintenance and Troubleshooting**: Includes a link for **Manage Device Types**.
- Map Data Management**: Includes a link for **Manage Map Data** (Manage layers, background maps and images).
- Marketing**: Includes links for **Manage Marketing Jobs** (View background marketing jobs and database cache result sets) and **Manage Marketing Defaults** (Manage the default settings such as Default Campaign Load Format and Default Global Audience for Marketing).
- BI Publisher**: Includes a link for **Manage BI Publisher** (Manage BI Publisher data sources, scheduler configuration, delivery destinations, and runtime properties).

At the bottom of the interface, there is a toolbar with icons for search, advanced search, administration, help, sign out, and a question mark. The status bar at the bottom right shows: Local intranet | Protected Mode: Off, zoom level 100%, and a refresh button.
